

# Matheus Kuster

Frontend Engineer | [Linkedin](#)

Web developer with over 2 years of frontend experience who is comfortable working with the latest technologies and is always trying to reach the next level. Looking for an opportunity to work at a company like Mediaocean with a positive mission to power the world for both marketers and consumers.

## Experience

### kea.cloud

Frontend Engineer | 2021 - Present

- Created a full component library based on design system. 100% tested + CI/CD + Storybook.
- Scaled and architected main call center product from a simple Chrome extension to a robust web application.
- Built integrations with Twilio, VGS and Datadog.

### Barnraiser

Frontend Engineer | 2020 - 2021 (few months)

- Helped on the SSR transformation from their website.

### Vulcanet

Frontend Engineer | 2020 - 2021

- Recruited 3 frontend developers to join the team.
- Helped in the performance drilling and fixes which leaded to a huge impact in customer's satisfaction.
- Designed and architected internal CRUD dashboards to boost the collaborators productivity.
- Brought Whatsapp, Instagram and MessageBird features integrations.
